CITY YEAR JACKSONVILLE

IMPACT REPORT

2022-2023

EMPOWERING YOUNG PEOPLE

Last year, with the support of our community and a firm belief in the power of young people carrying us forward, we served more than **800** elementary, middle, and high school students in **11** different schools. Our 18-25-year-old AmeriCorps members were at the heart of this work, serving as consistent and trustworthy near-peer mentors for students. Their work empowered students and schools to improve their ABCs: Attendance, Behavior, and Coursework (Math and English Language Arts). Meanwhile, we prepared our AmeriCorps members to set and reach their own professional goals. Keep reading to see what else City Year Jacksonville accomplished during the 2022-2023 school year.
