STARFISH STORY – A STORY OF STUDENT IMPACT

BY KAY-CI BELE

During the first few weeks of school, when I walked around the classroom asking who needed help most of the students would ignore me. However; one student in particular, Nathan* started to was interested, but we faced a language barrier. I tried my best to help him, but it was challenging. I promised to help him, so I write down as many of the problems as I could and recruited

help from my Spanish speaking teammates. Together, we were able to lesson plans into Spanish so he could be on the same page as the rest of the class. I want him to understand the problems in English and Spanish so that he is prepared for testing when it comes. Since we started working together, I've seen great improvements. He is able to complete an entire lesson plan without asking me for help and his grades have improved! *=Student Pseudonym
